

Digital Hose End Meter

A Hand-held Digital Volume Meter which is microprocessor based and ergonomically designed.

- For oil and Glycol
- Ergonomically designed
- Wide range of accessories
- Oval Gear Meter with Digital Display

A hand held commercial digital hose end meter incorporating ergonomic control valve, rotary swivel and oval gear meter with digital display.

Easy calibration for maximum accuracy, re-set button and 1/2" BSPF connection thread.

The Digital Meter is capable of handling volumes from 0.1 to 999.0 litres.

Meter requires 2xAAA batteries (Supplied with unit)

Part No.	Description
365603	Commercial digital hose end meter with 90° flexible nozzle.
365604	Commercial digital hose end meter with straight flexible nozzle.
365602	Commercial digital hose end meter with 60° rigid nozzle.
365605	Commercial digital hose end meter with 110° rigid nozzle.

Oil Control Valves and Accessories

Hand-held control valves for supply of oil.

Ergonomically designed control valves with progressive operation trigger for controlled delivery. Large flow capacity, rotary swivel to eliminate hose twisting. Inlet thread 1/2" BSPF.

Extension connection 1/2" BSPF. Max pressure: 105 bar.

Part No. 363077

Part No. 363078

Part No. 363079

Part No. 363075

- For oil
- Ergonomically designed
- Wide range of accessories
- Selection of angled nozzles

Part No. 369205

Part No. 369200

Part No. 369218

Part No. 369215

Part No. 369217

High volume control valve for dispensing high volumes of lubricant oil up to SAE-140. Unique two-way valve operation allows controlled delivery of either small quantities of oil when partially opened or up to maximum volume when fully opened. Lockable trigger for easier delivery of high volumes of lubricant. The control valve is heavy duty and has a reliable built in ball bearing swivel which eliminates hose rigidity when under pressure.

Part No. 363051
