

The First Point For All your Professional Lubrication Needs.

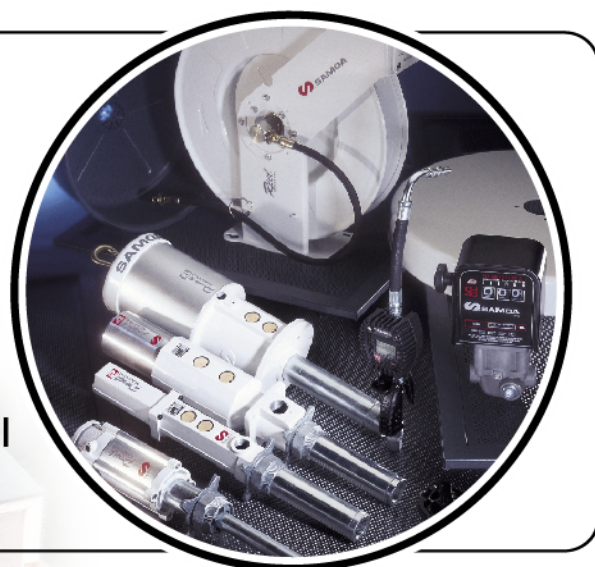

Samoa Limited (UK) was established in 1987 as a distribution and marketing company for the United Kingdom and Republic of Ireland.

Initially a manufacturer of grease nipples and lever grease guns, Samoa has evolved to become one of the worlds leading manufacturers of lubrication equipment.

While keeping in its manufacturing program the products with which Samoa started its activities, new products have been developed and added to the Samoa range establishing Samoa is one of the largest manufacturers with the widest product program developed and manufactured in its own factories.

Samoa products are present in more than 75 countries through a selected network of distributors.

Samoa is also recognised as Europe's leading manufacturer of lubrication equipment and associated products as well as gaining world recognition in this field.

Samoa Ltd (UK) offers training at our UK site or on location covering a vast range of products from Lubrication Equipment Training to Installation and Operation of Oil Monitoring Equipment plus much more.
